

BUGS!

Let's sing!

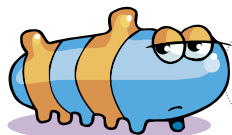

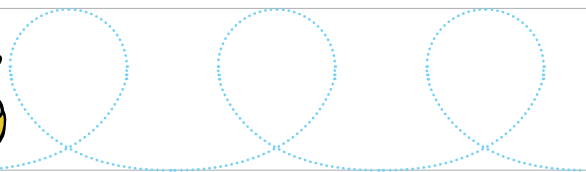

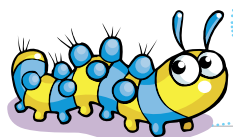

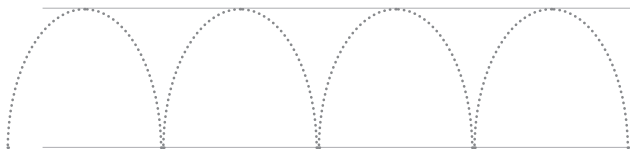

I like looking for Bugs in my backyard,
Some bugs are easy to find while others are quite hard.
There are just so many different bugs, there's lots of different kinds,
You never know what kind of bug that you are going to find.

Can you draw your own bug?

Fun Fact. Did you know that when a caterpillar grows up, it turns into a butterfly?

Pre-writing Practise, trace these patterns... then draw your own.

Activity Suggestions!

Let's get busy like a bee!

- # Go on a bug hunt
- # Life cycle of a butterfly
- # Life cycle of a tadpole
- # Bug stories
- # Egg carton ants

- # Collage items from a nature walk
- # Butterfly sensory tub
- # Paper plate lady bugs
- # Create a worm farm

- # Create a bug garden on a table
- # In a small trough, create a bug environment
- # Bugs and magnifying glasses

- # Coloured bug sorting and counting
- # Paint rocks as bugs and add to bug environment trough
