

# Stars!

## Let's sing!

We are brightly shining stars lighting up the sky, twinkling and turning up so very high, we can shine low and we can shine high, we can even do a star jump in the night sky.

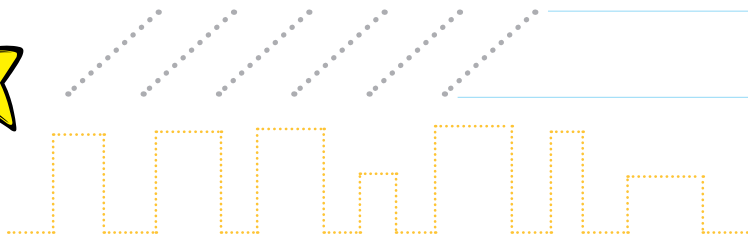

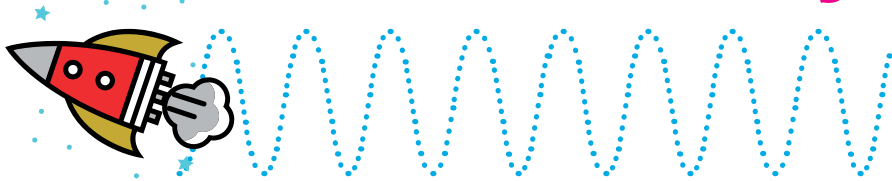

## Can you draw a star and a moon?

## Stars Fun Fact.

Stars make patterns in the sky called constellations. People have made up shapes out of bright stars like a game of connecting the dots. These patterns can be used for keeping track of the seasons.

## Star Patterns! Trace along the dotted line!

## Activity Suggestions! fun ways to learn about the weather

- # Making telescopes
- # Making glitter stars to hang from roof
- # Star cutters and play dough
- # Cooking star cookies
- # Discussion on day/night morning/afternoon
- # Sing familiar star songs
- # Create ice stars with confetti in them
- # Cut contact into shapes of star and then collage cellophane onto them and stick to window
- # Collage the letter "S" with different types of coloured paper
- # Shape stamping
